

Darren Winward

Trial Consultant

Darren Winward comes to Legal Concierge Inc. with 15 years of experience providing litigation support services and law practice technology consulting.

In 1992, he began his career in litigation support by coding documents for complex litigation while in law school. His interest in the technology led to a career in the field. His work has included database creation, coding and scanning project management, trial graphics preparation, and trial presentation. Darren has worked extensively with all major litigation support applications.

Darren has designed financial, statistical, and economic spreadsheet models with supporting analytical memoranda for insurance allocations, settlement scenarios, penalty calculations, and pricing/valuation disputes. While in-house at law firms, he worked to gather and analyze business and technical case information, handle a portion of the non-legal, pre-trial work otherwise given to more expensive outside consultants.

Darren has also worked with Fortune 500 companies' corporate legal and human resources departments to design, develop and deploy online compliance and ethics training programs, and to evaluate program effectiveness in reducing corporate liabilities.

Darren's knowledge encompasses the following applications and platforms: Access, Paradox, MS IIS & ASP, HTML, ODBC, SQL, Visual Basic & VBscript, TCP/IP, Excel, Quattro Pro, Concordance, IPRO, Summation, LiveNote, Casemap, JFS Litigator's Notebook, Lotus Notes, Sanction and the TrialDirector Suite.

Darren holds Juris Doctor and Master of Business Administration degrees from the University of Utah, and a Bachelor of Arts degree, cum laude, in management from Utah State University. He is a member of the Maryland State Bar and the District of Columbia Bar.
