

Ross Jones

Trial & Technical Consultant

Ross Jones has had a 20 year career with industrial computer feedback control systems. Ross returned to college and completed a degree in application development.

Since then he has held positions in the transportation industry as Systems Administrator, IT Manager and IT Director responsible for every facet of small to enterprise level IT operations.

Ross has extensive hands on experience in computer hardware and software, LAN/WAN and Windows Server support and administration. He is experienced in managing leases and contracts for computer and telecom systems, and is knowledgeable about software and web page development and deployment processes. Ross has developed and implemented small and large scale company intranet systems, deployed VPN, wireless, and remote connectivity solutions as well as authoring company training and policy/procedure documentation.
