

Darin Shapiro

IT Consultant/ LCI California

Darin has spent the last 15 years working in all facets of the IT world. With expertise in hardware design, implementation, and support, as well as a heavy background in software engineering, Darin approaches every problem uniquely with the resolve to ensure the appropriate solutions are delivered. With a large appetite for current IT knowledge, Darin is continually keeping abreast of the changing face of the computer technology world.

Darin has worked in network environments ranging from small Windows networks to ones with over 1500 non-heterogeneous workstations and servers consisting of Linux, Windows, and Mac based machines. Desktop, server, and network level support are all within Darin's IT Support repertoire. In the software engineering world, Darin has worked on and led many projects ranging from back-end server technologies to web based e-commerce and CRM solutions. His expertise includes most Microsoft technologies including the .Net framework, C#, VB.Net, C++, and various database platforms including MS SQL, Oracle, and MySQL
