

Stuart Armstrong

Trial Consultant

Stuart has been involved with the design and visual presentation of complex concepts and data for over 30 years. His clients have included the National Institutes of Health, the National Geographic Society, the American Geological Institute and Discovery Communications. His computer skills include creating detailed illustrations, slide shows and PowerPoint animations. He is also experienced in creating maps and three dimensional diagrams. He is a skilled artist who knows not only how to illustrate a concept but how to do it quickly and effectively. Stuart received a B.A. from the University of Maryland.

Computer Skills

Illustrator, Photoshop, PowerPoint
